

Md Aminul Islam

PMP®, CSM® | Founder & Managing Consultant, ITQAN Consulting

I turn complexity into controlled delivery.

Project delivery and digital transformation leader with 15+ years across enterprise systems, PMO governance, product delivery, fintech, microfinance and international operations. I connect business reality, technology teams and executive decisions - then build the structure needed to deliver responsibly.

CAREER IMPACT AT A GLANCE

3,200+

Branches and operational locations reached

38

Concurrent projects managed within one portfolio

150+

Professionals trained or mentored

01 CAREER JOURNEY

Built from operations. Grown through delivery.

2025 - NOW

Founder & Managing Consultant

ITQAN Consulting

- Advise organizations on ERP, PMO, product delivery, business analysis, software planning, project recovery and capability development.
- Translate unclear business problems into practical roadmaps, delivery controls and accountable decisions.

2024 - 2025

Head of PMO

TechnoNext - US-Bangla Group

- Supported centralized PMO setup and the CartUp e-commerce product lifecycle, release planning, risk and delivery improvement.

2024

GM & Head of Project Management

Synesis IT PLC

- Led strategic projects and introduced PMO charter, project budgeting, delivery KPIs and CMMI-aligned management practices.

2017 - 2024

Acting Head of Project Management

BRAC IT

- Managed a 38-project portfolio, helped deliver the flagship ERP and strengthened PMO, JIRA, CMMI and team-development practices.
- Progressed through project leadership roles while connecting nationwide business operations with enterprise technology delivery.

METHODS & TOOLS

MENTORSHIP

150+

Professionals trained or mentored in PMP®, Agile, business analysis, PMO practices, communication, leadership and project tools.

CROSS-BORDER EXPOSURE

- Bangladesh - enterprise, development, e-commerce and government programs
- China - manufacturing operations and automation
- Sierra Leone and Liberia - ERP rollout exposure
- International remote collaboration

SELECTED WORK / CASE STUDY / EDUCATION / IMPACT

Work that changed how organizations operate.

02 SIGNATURE CASE STUDY

BRAC ERP - nationwide scale, controlled one step at a time.

A multi-module enterprise platform supporting nationwide microfinance and core operations. The work required far more than software delivery: business-process understanding, structured decisions, phased rollout, user validation and patient coordination across a large organization.

90K+

STRUCTURE

Built program-level reporting, regular reviews and practical visibility across modules, risks and decisions.

ALIGN

Connected real branch workflows, enterprise requirements, technical feasibility and stakeholder expectations.

DELIVER

Used prioritization, demos, validation, pilots and rollout waves to reduce operational risk while scaling nationwide.

03 SELECTED WORK

GOVERNANCE / CMMI

PMO Transformation

JIRA-connected KPI visibility, delivery standards, budgeting discipline and reporting across a 38-project portfolio and 12-member PMO.

E-COMMERCE / PRODUCT

CartUp.com

PMO governance, product lifecycle support, Agile delivery, release coordination and risk management for a major e-commerce platform.

ENTERPRISE AUDIT

SAP Audit

System and implementation review for BRAC University that identified approximately USD 639K in cost efficiency.

INTERNATIONAL OPERATIONS

Across Borders

ERP rollout exposure in Africa and manufacturing automation work in China, connecting operations, inventory and technology teams.

04 FOUNDATION & LEARNING

Earlier career foundation

Financial operations, business analysis, software projects, client management and manufacturing work across United Finance, Ergo Ventures and China created a practical bridge between business reality and technology delivery.

Education and continued development

BBA in Finance - United International University. Merit scholarship recipient and champion team member of the Citi Financial IT Case Competition. Continued learning in product management, Agile, design thinking, digital transformation and business analysis.
